William Brewster Esq.,
Concord,
Mass.

Dear Mr. Brewster,-

Your letter on the Brown Tail Moth Fungus experiment at Concord is just a splendid bit of good news! I did not expect any such general distribution within so short a time, and I heartily congratulate you and the ~~general~~ public generally on this new protective ally. The Cambridge Entomologists may well feel proud of their achievement and if Mr. Roland Thaxter is successful in bringing back a Gypsy Fungus from Japan this summer that proves equally effective it will be of incalculable benefit. Allow me to thank you for the no inconsiderable trouble you must have taken to furnish the information asked for.

Hoping you will thoroughly enjoy your coming trip to Europe, I remain,

Very truly yours,

James H. Bowditch
